EXAMINER'S AMENDMENT

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Josh Snider on March 1, 2006.

The application has been amended as follows:

- Cancel claims 7-8.
- Amend Title to: --Liquid crystal display device having insulating patterns with width larger than gap in between--.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: As the claims were read and interpreted in light of the specification, the prior art of record fails to specifically disclose a liquid crystal display (LCD) device in which a liquid crystal layer has a negative dielectric anisotropy and being sealed between the substrates and in particular, an insulating layer that varies electric field orientations in a pixel region when a voltage is applied and comprising a plurality of insulating patterns each having a dielectric constant different from a dielectric constant of a surrounding area, and more

Art Unit: 2871

specifically, where a width of the insulating patterns set larger than a width of a gap between any two adjacent ones of the insulating patterns on the same substrate.

Although Konovalov and Kodon (US 5,790,218) disclose a similar LCD device, neither reference specifically discloses an insulating layer that varies electric field orientations in a pixel region when a voltage is applied and comprising a plurality of insulating patterns each having a dielectric constant different from a dielectric constant of a surrounding area, and more specifically, where a width of the insulating patterns set larger than a width of a gap between any two adjacent ones of the insulating patterns on the same substrate. As a result, allowance is proper.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
